

## What Growers Are Saying

“ The Bridgewater Farm in southwest Iowa is a USDA certified organic operation. We use sustainable organic practices to grow high quality, great tasting produce. We produce a full range of organic fruits and vegetables from asparagus to zucchini. This past year I was introduced to **TerraNeem® EC** a biological insecticide, fungicide, nematocide, and miticide. I applied it on a large portion of my crops with excellent results in the control of whitefly, squash bugs, powdery mildew and other crop insects and diseases. I decided to apply **TerraNeem® EC** side by side with PyGanic® on a whitefly infestation on my kale. I found it worked as well, if not better, than PyGanic® and at about 1/5 the cost. ”

Dale Raasch & Family  
Bridgewater Farm, IA

## TerraNeem® EC

Insecticide/Miticide/Nematicide/Fungicide

**TerraNeem® EC** is a plant derived broad-spectrum biopesticide for the control of insects and diseases in organic and conventional vegetables, fruit, herbs, forage and row crop.
