

Terramera

# RANGO™

Broad Range Control

## One Product, Triple Control

Fungicide • Insecticide • Miticide

**RANGO™** contains cold pressed neem oil. The cold pressing process results in a high-quality oil that contains over 150 bioactives, including azadirachtin.

**RANGO™** is an excellent IPM tool as it is classified as "NC" FRAC Code - no known resistance, making it a great choice for organic and conventional growers.

### Superior Stability

**Proprietary inert chassis** results in a premier formulation that is **more stable and stays in suspension for longer (48+ hours)**.

### Multiple Modes of Action

Works four ways as an **antifeedant, insect repellent, growth regulator and fungal growth inhibitor**.

### Improved Performance

**Superior efficacy in controlling pests and diseases**. Controls insects throughout their entire life cycle.

### Better Handling

**Low freezing point and easy to mix**, allowing for a better application.

**RANGO™** provides control of major insects and diseases on onions to help you improve the productivity of your field and the bottom line of your operation.

Pest/Disease	Establishment	Vegetative Growth	Bulb Initiation	Bulb Development	Maturation
Bulb Mites	✓	✓			
Cutworms	✓	✓			
Leafminers				✓	✓
Onion Maggots	✓	✓	✓		
Onion Thrips		✓	✓	✓	✓
Spider Mites			✓	✓
