

This guide is intended to provide instructions for achieving optimal product efficacy.

RANGO™ is a premium formulation offering superior emulsion and efficacy. However, as it contains Cold Pressed Neem Oil, the product can solidify under certain conditions.

Check product 3 - 5 days before intended use to verify the state of the liquid in the bottles as per below and follow the steps accordingly.

SCENARIO #1: When you open the bottle, the product is **totally liquid**.

Step 1. Follow the **Shaking Instructions** shown below before mixing it with water.

Shaking Instructions

For the **32 fl oz** and **1 gallon** bottle, shake vigorously up and down for **30 – 60 seconds**.

For the **2.5 gallon bottle**, lay the bottle horizontally and shake vigorously for **30 – 60 seconds**.

What not to do:
DO NOT gently invert the bottle upside down.

SCENARIO #2: When you open the bottle, the product is **partially liquid/solid**.

Step 1. Follow the **Shaking Instructions** show above.

Step 2. Store the product at over **80°F for 24h** for the 32 fl oz and 1 gallon sizes, and **72h** for the 2.5 gallon size OR store at **72°F for 7 days** for all three sizes.

80°F for 24h

32 fl oz

1 gal

2.5 gal

80°F for 72h

Step 3. Repeat the **Shaking Instructions** and then proceed to mixing it with water.

Check product 3 - 5 days before intended use to verify the state of the liquid in the bottles as per instructions on page 1.

RANGO™ does not require additional surfactant to mix.

To achieve an optimal suspension/emulsion, follow the steps below:

1. Mix RANGO™ at a 1:1 ratio with warm water and bring to suspension.
2. Add this solution to a spray tank half-filled with temperate water* and agitate.
3. Fill spray tank with temperate water (>45°F) up to final spray volume and agitate.

*Recommended pH of the spray water is between 5.5 - 7.

Storage Instructions

To prevent RANGO™ from solidifying, store it under optimal conditions:

- Room temperature (>72°F) – If stored in cool conditions for extended period, move to a warm place before using
- Shaded areas
- Prevent exposure to direct sunlight
